

HARVARD MEDICAL SCHOOL
Statement of Potential Conflict of Interest
Trauma and Critical Care Symposium
Course Number: 3014022

Harvard Medical School has long held the standard that its continuing medical education programs be free of commercial bias.

Now, in accord with the disclosure policy of the Medical School as well as the standards set forth by the Accreditation Council on Continuing Medical Education, speakers and their spouses/partners, and planners have been asked to disclose any relationship they have to companies producing pharmaceuticals, medical equipment, prosthesis, etc. that might be germane to the content of their lectures. Please note that now in accordance with recent policies from the ACGME, relationships of the person involved in the CME activity must include financial relationships of a spouse or partner. **In addition, faculty have been asked to list any off label uses, they will discuss, of pharmaceutical and devices for investigational or non-FDA approves purposes.**

Such disclosure is not intended to suggest or condone bias in any presentation, but is elicited to provide the course director and registrants with information that might be of potential importance to their evaluation of a given talk.
